Step-by-step instructions

1.0 Importing CAD libraries for prosthetic components into the exocad® CAD software

Note: CAD libraries for implant analogs see page 4

Previous versions of existing CAD libraries for prosthetic components (incl. from third party providers) should be deleted before importing the new library in order to minimize data errors.

Removing previous versions of the library

1. Choose the local hard disk *(C:)* within the Windows Explorer
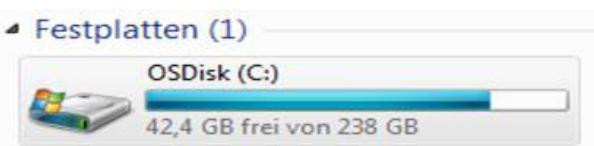

2. Choose folder *Programme (x86)*

3. Choose folder *exocad® DentalCAD* for the currently used version of the CAD

camlog

4. Choose folder *DentalCADApp*

Name	Änderungsdatum	Typ
CAD-Data	21.06.2013 10:23	Dateiordner
DentalCADApp	18.03.2013 10:22	Dateiordner
DentalDB	18.03.2013 10:22	Dateiordner

5. Choose folder *library*

Name	Änderungsdatum	Typ
bin	18.03.2013 10:21	Dateiordner
config	18.03.2013 10:21	Dateiordner
exocam	18.03.2013 10:21	Dateiordner
icons	18.03.2013 10:21	Dateiordner
languages	18.03.2013 10:22	Dateiordner
library	18.03.2013 10:22	Dateiordner
plugins	18.03.2013 10:22	Dateiordner
Skins	18.03.2013 10:22	Dateiordner

6. Choose folder *implant*

Name	Änderungsdatum	Typ
articulator	18.03.2013 10:22	Dateiordner
attachments	18.03.2013 10:22	Dateiordner
bar	18.03.2013 10:22	Dateiordner
bolts	18.03.2013 10:22	Dateiordner
gfx	18.03.2013 10:22	Dateiordner
implant	20.06.2013 22:50	Dateiordner
metadata	18.03.2013 10:22	Dateiordner
pontics	18.03.2013 10:22	Dateiordner
rendereffects	18.03.2013 10:22	Dateiordner
retentions	18.03.2013 10:22	Dateiordner
teeth	18.03.2013 10:22	Dateiordner
visualizers	18.03.2013 10:22	Dateiordner

7. Choose and delete folder with the currently used CAD library (in example *CAMLOG_Titanium_base_CADCAM_for_exocad*)

cadstar-s-bl	04.06.2013 17:33	Dateiordner
cadstar-s-syn	04.06.2013 17:33	Dateiordner
CAMLOG_Titanium_base_CADCAM_for_exocad	03.01.2014 15:44	Dateiordner
d5h14o15	04.06.2013 17:33	Dateiordner
DDG-1100	04.06.2013 17:33	Dateiordner
DDG-1100 System	04.06.2013 17:33	Dateiordner

camlog

After removing previous versions of the library or libraries, the import of the current version (of the library) can be started.

1. Copy folder as part of the downloaded zipfile from the CAMLOG/iSy website

📁 camlog-camlog-titanium-base_CADCAM_bridge_2016-01-25

in folder *implant*.
(positioned in the same path as described for removing the former version of the library – see previous steps # 1 to 6)

Name	Änderungsdatum	Typ
📁 articulator	18.03.2013 10:22	Dateiordner
📁 attachments	18.03.2013 10:22	Dateiordner
📁 bar	18.03.2013 10:22	Dateiordner
📁 bolts	18.03.2013 10:22	Dateiordner
📁 gfx	18.03.2013 10:22	Dateiordner
📁 implant	20.06.2013 22:50	Dateiordner
📁 metadata	18.03.2013 10:22	Dateiordner
📁 pontics	18.03.2013 10:22	Dateiordner
📁 rendereffects	18.03.2013 10:22	Dateiordner
📁 retentions	18.03.2013 10:22	Dateiordner
📁 teeth	18.03.2013 10:22	Dateiordner
📁 visualizers	18.03.2013 10:22	Dateiordner

**Important:
Do not import a
Zip archive – only
unzipped folders
can be used!**

2. Double-check that the proper library has been imported in the *implant* folder

📁 cadstar-n-rs
📁 cadstar-s-bl
📁 cadstar-s-syn
📁 camlog-camlog
📁 camlog-camlog-titanium-base_CADCAM_bridge_2016-01-25
📁 camlog-conelog
📁 ctech-bl
📁 ctech-el
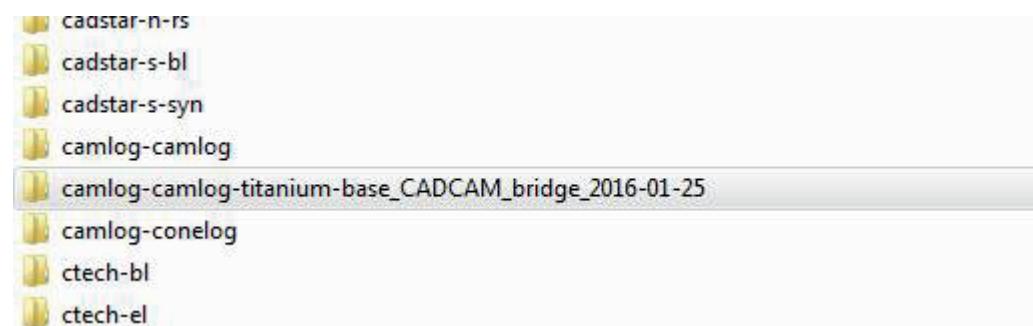

3. Close folder.
The exocad® CAD software can now be used with the current CAMLOG library

If you have another folder hierarchy please contact your exocad® reseller.

camlog

Step-by-step instructions

2.0 Importing CAD Implant analog libraries into the exocad® CAD software

Disclaimer: Modelcreator is available in exocad® software version 2.2 Valletta and above. Version 2.4 Plovdiv or higher allows the user to select between different importet implant analogs.

To import Implant analog libraries, follow the steps as described in chapter 1.0, but be aware they are saved in a different folder.

Implant analog libraries must be saved at

Exocad > DentalCAD > DentalCadApp > library > modelcreator > implants
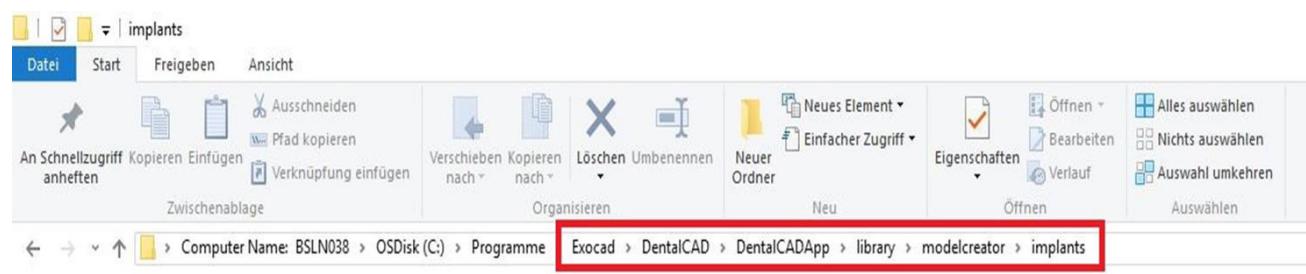

If you have another folder hierarchy please contact your exocad® reseller.

Important:
If your systems runs on version 2.3 Matera or lower only one implant provider can be saved at " ... modelcreator > implants "(either NT-Trading or CAMLOG).

Select either DIM analogs from NT-Trading...

Name	Änderungsdatum	Typ	Größe
CAMLOG 3.3 one-piece Ti-CAM Blank typ IAC-ME NT DIM Analog	25.04.2017 15:51	Dateiordner	
CAMLOG 3.8 one-piece Ti-CAM Blank typ IAC-ME NT DIM Analog	25.04.2017 15:51	Dateiordner	
CAMLOG 4.3 one-piece Ti-CAM Blank typ IAC-ME NT DIM Analog	25.04.2017 15:51	Dateiordner	
CAMLOG 5.0 one-piece Ti-CAM Blank typ IAC-ME NT DIM Analog	25.04.2017 15:51	Dateiordner	

camlog

...or implant analogs from CAMLOG for CAMLOG and CONELOG

Please select your choice of analog(s) from the following libraries:
CAMLOG_CAM-Ti-Blank_type_IAC_ME_CAD-Library_exocad_DE
CAMLOG_Ti-Base_CAD-Library_exocad_DE
CONELOG_CAM-Ti-Blank_type_IAC_ME_CAD-Library_exocad_DE
CONELOG_Ti-Base_CAD-Library_exocad_DE
