WE ARE MAKING
HISTORY
IN IMPLANT DENTISTRY

JOIN US ON A JOURNEY INTO THE FUTURE

CAMLOG. THIS NAME REPRESENTS A REMARKABLY SUCCESSFUL COMPANY, THAT DEVELOPS AND OFFERS PRACTICAL SOLUTIONS IN IMPLANT DENTISTRY.

CAMLOG's staff lay the foundation of its success. They are the ones who have passionately built the company. They use all their knowledge and experience every day to offer users reliable, practical products and services and make lasting success possible.

CAMLOG MEANS TEAM SPIRIT AND WORKING TOGETHER IN PARTNERSHIP.

We do not only apply these values within the company, but they also govern how we work with our customers, business partners and scientists.

Come and get to know CAMLOG and its staff.

Welcome to CAMLOG.

FROM THE **DENTAL OFFICE**
FOR THE **DENTAL OFFICE**

Optimal teamwork guarantees a successful result.

YESTERDAY, TODAY AND TOMORROW

WE STRONGLY BELIEVE THAT AN IMPLANT SYSTEM MUST BE SIMPLE AND LOGICAL TO ENSURE THE BEST POSSIBLE TREATMENT SUCCESS FOR USERS IN A DENTAL OFFICE.

We therefore focus on the requirements of a dental office. Consistently. All our products and systems must be easy to use and practical – for the whole treatment team. That is why CAMLOG thinking always centers on prosthetics. Implant therapy planning starts with the desired prosthetic result (backward planning).

It is this philosophy that has guided the developers of the CAMLOG System, Dr. Axel Kirsch, Dr. Karl-Ludwig Ackermann and master dental technician Gerhard Neuendorff. With the CAMLOG® Implant System, they have single-mindedly and successfully implemented their many years of practical experience and their idea of an optimized implant therapy. The CAMLOG® Implant System guarantees high user-friendliness, liberty of choice and precision.

CAMLOG STANDS FOR WELL-ENGINEERED STATE-OF-THE-ART PRODUCTS.

What matters to us is how these products benefit the dental office. Every new product has to be simple and easy to use and provide flexibility for the whole treatment team. These are the criteria that must be met before these products reach your dental office.

IT WAS PRACTITIONERS WHO CAME UP WITH THE CONCEPT OF THE CAMLOG® IMPLANT SYSTEM.

Users' experiences are as valuable and important to us today as they ever were. We talk with practitioners. We observe, and we listen. What we learn from this continuously flows into development.

QUALITY GUARANTORS

PASSION CREATES PRECISION

SINCE ITS MARKET LAUNCH IN 1999, THE CAMLOG BRAND HAS STOOD FOR PRECISION AND RELIABILITY.

Many years of experience, a maximum of precision and conscientious production and quality controls are the sources of outstanding standard of quality, in which we take pride.

THE CAMLOG® IMPLANT SYSTEM IS MADE IN GERMANY.

At our production facilities in Wimsheim, experienced specialists manufacture hundreds of thousands of CAMLOG® state-of-the-art products and instruments on ultra-modern machinery every year. Technically perfected production processes and stringent product checks guarantee the consistently high quality of CAMLOG products. 100% inspections of internally manufactured sterile products, regular long-term tests and standardized validated processes guarantee that CAMLOG® products are the safest they can be.

OUR PRODUCTION AND QUALITY MANAGEMENT SYSTEMS COMPLY WITH ALL INTERNATIONAL MEDICAL TECHNOLOGY STANDARDS.

Additionally to EN ISO 13485 and EN ISO 9001 certifications, they meet the strict acceptance criteria of the American FDA (Food and Drug Administration).

The CAMLOG seal of quality can only be reliably attained with commitment, experience and attention to detail. That is what our staff stands for day after day.

The heart of the system is the internationally patented tube-in-tube™ implant-to-abutment connection. With its high precision and its special geometric principle with three short cams, it enables an almost perfect distribution of forces and torque.

EXPERIENCE MEANS
RELIABILITY

PERSONALIZED **OFFICE-**
BASED SERVICE

OUR STRENGTH IS YOUR GAIN

AT CAMLOG, USERS IN DENTAL OFFICES ARE THE FOCUS OF ATTENTION.

Office-friendliness means much more to us than just offering an advanced implant system. Our service is as personalized as your office requirements are varied.

CAMLOG offers more: from an introduction to implant dentistry or sitting in on experienced practitioners to personal advice about implantological questions or office management. This naturally also includes the cost-effectiveness of our implant system with its good price-performance ratio.

OUR STAFF'S FAR-REACHING EXPERTISE AND COMMITMENT MAKE US YOUR RELIABLE PARTNER.

At CAMLOG, we are on the same page as you and are happy to answer any implantology-related questions you may have, whether you require our technical or customer service or one of our field managers.

EXPERTS IN FURTHER EDUCATION

SCIENCE AND PRACTICE

THE MOST IMPORTANT CAMLOG PARTNER IN SCIENCE, TRAINING AND KNOWLEDGE EXCHANGE IS THE CAMLOG FOUNDATION.

Since its establishment in 2006, developers, scientists, clinicians and dentists have been working together under the foundation's roof to encourage progress in implant dentistry for the benefit of patients.

By funding scientific research projects, the CAMLOG Foundation's scientific committee enables new implantological knowledge to be created. The practical communication of high-level knowledge is encouraged by the foundation's Education Committee, which organizes national and international CAMLOG congresses. The 3rd International CAMLOG Congress was held at Stuttgart in 2010, with more than 1200 attendees.

EVERYONE CAN WORK TOGETHER

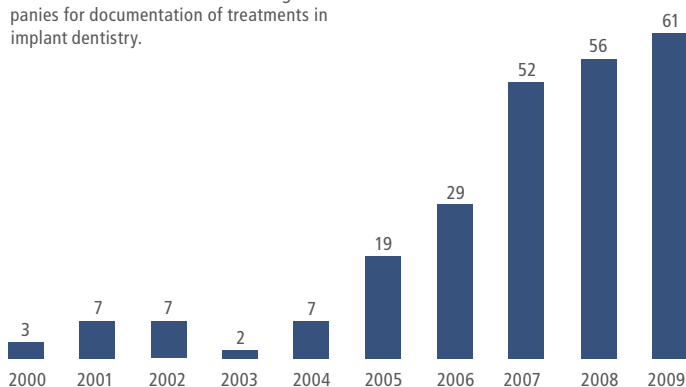

Under the Foundation's aegis, the CAMLOG Academy offers all users the opportunity to exchange knowledge and experience with each other and the Foundation.

The close cooperation of Foundation and CAMLOG, plus the teamwork of technicians, scientists and dentists bring forth innovative therapy concepts for implant patients. The CAMLOG Foundation has established itself as a recognized center of implantological expertise. It will continue to be a key factor for continuous progress in implant dentistry.

NUMBER OF PUBLICATIONS

CAMLOG is one of the world's leading companies for documentation of treatments in implant dentistry.

THE PERFECT SYMBIOSIS

MORE **KNOWLEDGE**
MEANS MORE **SUCCESS**

EXPERTISE THANKS TO FURTHER EDUCATION

THE CORNERSTONES OF PREDICTABLE TREATMENT SUCCESS ARE PROFOUND KNOWLEDGE AND CONTINUING EDUCATION.

With its extensive range of continuing education, CAMLOG is a partner of dental offices for quality and up-to-date dental courses with practical benefits. Every year, we organize more than 1.000 certified continuing education courses with internationally recognized instructors from dental clinics, offices and laboratories.

In CAMLOG courses, workshops, lectures and symposiums, know-how is transferred from the most diverse areas of implant dentistry from surgery to prosthetics, for dentists, dental technicians and dental assistants. In congress lectures and CAMLOG courses, around 50.000 participants learn new scientific knowledge, clinical concepts and practical tips and tricks from one dental office to another. Moreover, CAMLOG delivers extensive material on patient education and system use to its customers.

Get valuable tips and tricks at our hands-on courses.

HIGH-TECH- PRODUCTION

CAMLOG – GLOBALLY SUCCESSFUL

IN 1999, CAMLOG ENTERED THE MARKET WITH AN INNOVATIVE PRODUCT AND A COMPETENT AND COMMITTED TEAM.

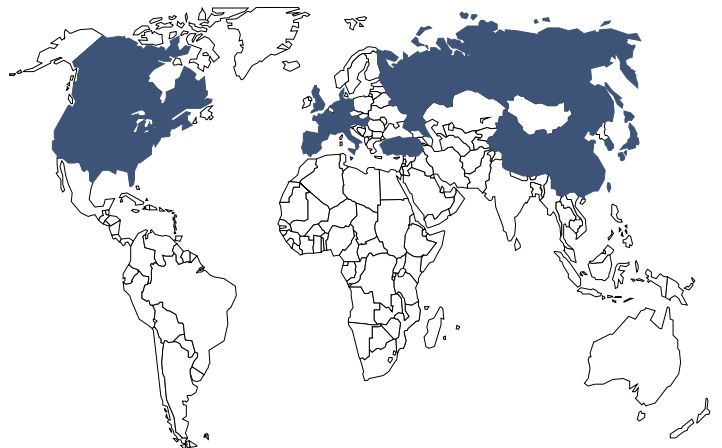

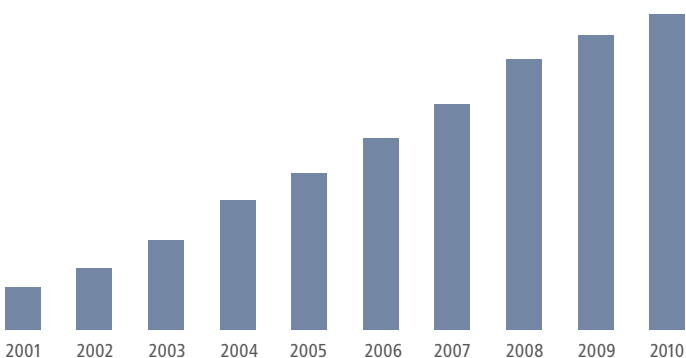

Since then, CAMLOG has established itself as one of the leading implant suppliers – thanks to perseverance, fairness, reliability and enthusiasm. With three subsidiaries and sales partners in 20 countries, CAMLOG has constantly grown in recent years thanks to the trust of its market partners and has established itself in the global market as a well-known quality company.

CAMLOG REPRESENTS MAXIMUM QUALITY AND RELIABILITY IN ALL AREAS.

For this reason, we are continuously investing in state-of-the-art technology and staff training. So that the whole treatment team in the dental office can rely on the safety and user-friendliness of CAMLOG products.

DEVELOPMENT OF SALES/NATIONAL AGENCIES

CAMLOG is experiencing continuous global growth.

INNOVATIONS FOR YOU

CAMLOG INVESTS CONSIDERABLY IN RESEARCH AND DEVELOPMENT EVERY YEAR.

We are convinced that innovations will shape our company's future. Your patients are always our main focus. We therefore introduce carefully tested systems to the market, because you and your patients are entitled to successful products.

OUR PRODUCTION IS AND WILL BE BASED IN GERMANY.

Here, we create more jobs and get involved in training of apprentices. Our aim is to be among the region's top employers and to offer our staff long-term job security.

ALL OUR EMPLOYEES HAVE THE SAME GOAL: TO DELIVER USER-FRIENDLY AND RELIABLE PRODUCTS AND SERVICES THAT BENEFIT YOUR PATIENTS.

CAMLOG – the partner of choice for dental offices
